NOTES:

*Our discount programs are cumulative and only one discount option may be utilized for registrations (i.e. multiple events discount can't be combined with series discount). Early registration discount may be added to series or multiple event discounts if applicable. Discounted fees must be paid one calendar week before the contracted event takes place. Otherwise, discounted fees will revert back to flat rate.

**Discounts may not be available for some special events. However, all events count toward the discount level for multiple event registration. For example, if you register for a five show series and one is a non-discounted special event, you will still get a 20% discount on the remaining four events. If you register for a date-TBA event the discount will be calculated as if the event were held on the last day of the month. Please contact Transition Careers for details about any event.
